## PROFILE

---

**Fresh Graduate from Gunadarma University** with an **Associate degree in Informatics Management**, achieving a **GPA of 3.81 out of 4.00**. Possesses a foundation in programming and application development. Highly interested and enthusiastic about the constantly evolving technological advancements, particularly in the fields of **Programming, Front-end Development and Flutter Mobile Development**.

## EDUCATION

---

**Gunadarma University – Depok, Indonesia**

**Sep 2020 – Aug 2023**

**Informatics Management | GPA: 3.81 out of 4.00**

- *Algorithm Programming*: Analyzing programming algorithms based on existing web and mobile applications
- *Information System Design*: Practicing SDLC methods by conducting requirement analysis and system design. Also, conducting thorough testing before software implementation
- *Database system*: Creating data models, designing databases effectively and explaining information systems where database applications can be implemented
- *Structured Programming Techniques*: Developing e-learning and e-commerce applications using Java, Dart, Flutter, PHP and MySQL
- *Merdeka Belajar Kampus Merdeka*: Independent Study Exchange Program from Ministry of Education and Culture

## EXPERIENCE

---

**Freelance**

**Sep 2023 – Present**

- Collaborated with User Interface/User Experience to develop 2 e-commerce mobile applications for client orders, using the Flutter framework.
- Build a e-commerce website vape store with PHP, HTML, Tailwind CSS and Javascript

## PROJECT

---

**FakeFakeFake – Website**

<https://ecommerce-with-fake-storeapi.netlify.app/>

- An single-page application e-commerce website using React JS with hooks function and Tailwind CSS to enhance its appearance
- This website fetches data from the Fake Store API to display products

**Mandiri Furniture Apps – Mobile Application (Android)**

- Developed a mobile application aimed as an e-commerce platform specifically for the sale of furniture products from Mandiri Furniture as a UMKM or independent Micro, Small and Medium Enterprises
- This application is being developed collaboratively by a team of 3 people using Flutter and Dart for a responsive and visually appealing user interface, while PHP and MySQL are utilized for the backend
- To enrich its features, this application integrates the RajaOngkir API to accurately retrieve shipping cost information and the Stripe API as a payment method

**VapeStore – Website**

<https://arrayxysworld.000webhostapp.com/arrayxys-vape/>

- An e-commerce website project focused on the sale of vape equipment and accessories
- The development of this website involving using HTML, Tailwind CSS and Javascript for an attractive and responsive user interface, while PHP and MySQL are used for efficient data management
- To facilitate the payment process, VapeStore integrated the PayPal API as a payment method

### **TodoApp – Mobile Application (Android)**

- A mobile application designed as an efficient solution for time-based task management.
- This project adopts the CRUD concept with 4 basic data operations: Create, Read, Update, Delete, which are simple yet effective for managing task lists
- The application development was carried out using Flutter and Dart, presenting a responsive interface
- TodoApp utilizes the Firebase platform for storing and managing data and implements Authentication with Google feature to ensure security and controlled access within the application

### **TRAINING AND CERTIFICATION**

---

- |   |                 |
|---|-----------------|
| • <b>React Js Web Frontend</b> – Sanbercode                             | <i>Jan 2024</i> |
| • <b>Programmer</b> – Badan Nasional Sertifikasi Profesi                | <i>Jul 2023</i> |
| • <b>Application Development</b> – Lepkom Gunadarma                     | <i>Jun 2023</i> |
| • <b>Java For Intermediate</b> – Lepkom Gunadarma                       | <i>Feb 2023</i> |
| • <b>Javascript Programming Language Fundamental</b> – Lepkom Gunadarma | <i>Sep 2022</i> |
| • <b>Java Programming for Beginner</b> – Lepkom Gunadarma               | <i>Feb 2022</i> |
| • <b>Go-Lang for Beginner</b> – Lepkom Gunadarma                        | <i>Aug 2021</i> |
| • <b>Fundamental Web Programming</b> – Lepkom Gunadarma                 | <i>Aug 2021</i> |
| • <b>Fundamental Desktop Programming</b> – Lepkom Gunadarma             | <i>Feb 2021</i> |

### **ORGANIZATIONAL EXPERIENCE**

---

#### **Himpunan Mahasiswa Manajemen Informatika - Gunadarma University**

##### **Head of Association**

*Oct 2022 – Jul 2023*

- Leading comprehensively based on general rules and specific regulations
- Responsible for overseeing and supervising all organizational activities and holding the general organization's policies both within and outside the campus
- Making decisions and problem-solving to achieve the goals

##### **Staff of the Academic Division**

*Jul 2021 – Oct 2022*

- Initiating and leading the Informatics Management student Learning Forum program
- Participating in ensuring the success of 5+ committee events within the association
- Participating in the Question Bank program by collecting and following up on questions from Informatics Management courses, with the aim of strengthening preparation and understanding of the material before exams

### **EXPERTISE**

---

**Technical:** HTML, CSS, Javascript, Dart, Flutter, React Js, PHP, Bootstrap, Tailwind CSS, MySQL, Firebase, Git, Github

**Languages:** Bahasa Indonesia, English
